

**CIMCO Integration** develops and markets world leading software for Computer Integrated Manufacturing.

CIMCO Integration was founded in 1991, and from the beginning we have been focusing on providing software solutions and integration work in the area of Computer Integrated Manufacturing.

CIMCO Integration has sold more than 10,000 software licenses through experienced CAD/CAM/CNC resellers and consultants all over the world. The close contact and quick feedback between our resellers, experts, our customers and us, coupled with the will and ability to day-to-day invention, development and implementation ensure us a leading position - and our customers competitive products, such as:

**CIMCO DNC-Max**

Advanced DNC server, with on-line feed/speed adjustment, remote administration, ...

**CIMCO Edit**

The worlds fastest NC editor! The CNC programmers' editor of choice. Fast NC Program simulation and verification option.

**CIMCO CNC-Calc**

2D CAD. Complex geometric calculations in seconds.

**CIMCO NC-Base**

Easy to use database for managing NC programs and associated data, such as set-up sheets, tool lists, CAD files, digital images.

**CIMCO MDC-Max**

MDE/BDE manufacturing data collection. Powerful machine data collection and analysis.

**CIMCO 5-axis Post processors**

Advanced 5-axis post processors for a wide range of CNC's.

**CIMCO NFS/FTP**

Easy to configure NFS/FTP for LAN connected CNC's.

In addition to the development of our own software products, we provide CAD/CAM solutions and consulting for 2½-, 3- and 5-axis CNC-programming for manufacturing companies worldwide.

The company headquarters and main training facility are located near Copenhagen, Denmark. This is also the base of operation for the sales and support team. The technical service staff travels worldwide and has local offices spread throughout the country.

The company headquarters and main training facilities are located in Lyngby, 20 km north of the Danish capital Copenhagen.

CIMCO Integration supplies software solutions to customers worldwide, including departments of the following companies and institutions:

3M  
ABB  
AEG  
Air New Zealand  
Airbus  
Alcatel  
Alcoa
